What is *Truth* Against *Terror*?

By Kevin Barrett, MUJCA.ORG

Polls show that Muslims worldwide view the so-called Global War on Terror (GWOT) skeptically. The best survey ever taken on the subject (World Public Opinion, 2007)¹ showed that three-quarters of the residents of the biggest Muslim-majority countries think GWOT is really a disguised war on Islam: “While US leaders may frame the conflict as a war on terrorism, people in the Islamic world clearly perceive the US as being at war with Islam,” says Steven Kull, editor of WorldPublicOpinion.org. The same poll showed that “On average less than one in four (Muslims worldwide) believes al Qaeda was responsible for the September 11th attacks. Pakistanis are the most skeptical—only 3 percent think al Qaeda did it.”

Within the United States, polls show that nearly two-thirds of American Muslims reject the official story of 9/11 (as do thousands of non-Muslim [architects and engineers](#), pilots, scientists, military, intelligence, and political leaders, and other experts—see [PatriotsQuestion911.com](#)). Yet the leaders of most American Muslim communities are afraid to allow discussion of this issue in their masjid, conferences, and events. They know that if they allow this critically important topic to be

aired, they may come under attack in the Zionist-dominated MSM (mainstream media),² and their funding might be jeopardized.

What this means is that American Muslims are being terrorized into silence. They are being frightened into going along with libelous attacks on Islam and Muslims.

The post-2001 wave of anti-Islam propaganda in the West, spearheaded by a series of false flag attacks, is responsible for a huge wave of terrorism: both GWOT’s terrorist murder of roughly 32 million Muslims worldwide (according to avoidable mortality expert Dr. Gideon Polya) and the murder of thousands of people, almost all of them Muslims, by ISIS/Daesh and other takfiri groups.

The best way to stop this wave of terrorism is by telling the truth. The truth about GWOT—that it is a hoax—can stop the 32-million-Muslim genocide triggered by 9/11. And the truth about the takfiris—that they are enemies of Islam, enemies of God, and enemies of humanity, but close friends of Zionists and imperialists—can deny them traction among the young, angry, unsophisticated Muslims they prey on.

Deeper Truths

There are also deeper truths that can help stop terrorism. One is that terrorism just doesn’t work. Caleb Carr’s *The Lessons of Terror* shows that terrorism—defined as the deliberate attack on civilians to

create fear—is a military tactic with a long history of failure. Attacking civilians is a terrible way to win hearts and minds; it almost always backfires. But attacking civilians and blaming your enemies (the false flag strategy) works well. Thus the best anti-terror strategy is to expose false flags, thereby impeding the one form of terrorism that can be an effective and tempting tactic.

An even deeper truth about terrorism is that Allah has forbidden it. The Qur’an forbids targeting non-combatants—or even combatants the moment they stop fighting (2:193). Killing civilians is murder, a crime so grave it is equivalent to “killing all mankind” (5:53). Killing non-combatants, destroying buildings, even cutting down fruit trees or burning fields is forbidden under Islamic law.

The deepest truth of all is that we will all face final judgment for our actions in this life. While an atheist might be tempted to engage in terrorism if he thought it would benefit his cause, Muslims know that the apparent benefit would only be temporary and superficial...and finally illusory. The fact that we will be judged by God, and forced to fully face the consequences and rewards and punishments of every dust-speck’s worth of good or evil we have done in this life, prevents us from risking our souls by committing crimes that may seem expedient in the short term, but condemn us in the end.

Malaysia & Pakistan Elect Pro-9/11-Truth Prime Ministers

The two biggest Muslim-majority nations where English is widely spoken—Malaysia and Pakistan—have elected pro-9/11-truth Prime Ministers. In Malaysia, Dr. Mahathir bin Mohamad shocked the world with his comeback electoral victory in May 2018. Then in July 2018 Imran Khan won an equally stunning victory in Pakistan.

Dr. Mahathir is well known for his support of the global 9/11 truth movement. In November 2012 he convened the International Conference on 9/11 Revisited in Kuala Lumpur, which featured experts and eyewitnesses testifying that the three World Trade Center skyscrapers were destroyed by pre-planted explosives, not by plane crashes and fires. Dr. Mahathir's [speech](#) at the conference ridiculed the US government's official story: "But 9/11 did just what Pearl Harbor did, launch a horrific war which killed hundreds of thousands of Muslims, devastated Iraq and Afghanistan, and made Muslims the universal enemies of the whole world. Someone obviously gained from this. Find the beneficiaries and I believe you will find the real terrorists."

Like Malaysia's Dr. Mahathir, Pakistan's Imran Khan is well-acquainted with the facts about the 9/11 false flag operation. Imran Khan is a contributor to the anti-Zionist pro-9/11-truth publication *Veterans Today*, and a friend of its editor, Gordon Duff. Imran Khan has also been briefed about the 9/11 false flag operation by former head of Pakistani Intelligence Gen. Hamid Gul. The new Pakistani PM's policies are informed by his 9/11-truth-influenced skepticism about Pakistan's relationship with

the USA, which used 9/11 to threaten to "bomb Pakistan back to the Stone Age," and has (along with India and Israel) been fomenting terrorism in the region ever since.

Experts Conclusively Debunk the Official 9/11 Story

The 9/11 Commission blamed the September 2001 attacks on New York and Washington, DC on 19 young Muslims and Osama bin Laden. That official story changed the world. But it was not just false; it was egregiously fraudulent. The proof is in the new book *9/11 Unmasked: An International Review Panel Investigation* by David Ray Griffin and Elizabeth Woodworth.

9/11 Unmasked is the most succinct, inarguable, and up-to-date refutation of the US government and mainstream media's position on 9/11. Though credited to two authors — David Ray Griffin, the world's leading 9/11 scholar, and Elizabeth Woodworth, a science librarian — it is really a seven-years-in-the-making collaborative work of 23 experts from fields including physics, structural engineering, aeronautics, chemistry, law, and other fields. These experts examined a great deal of material involving potential challenges to the official account of 9/11. Using the "best evidence" consensus model used by medical researchers, they gradually narrowed their focus to the following issues: The destruction of the Twin Towers, the destruction of WTC-7, the attack on the Pentagon, the 9/11 flights, US military exercises on and before 9/11, incriminating behavior by US military and political leaders, Osama bin Laden and the alleged hijackers, phone calls from the 9/11 flights, and insider trading.

Part 6 of *9/11 Unmasked* examines eight American military and political leaders with central roles on 9/11: Vice President Dick Cheney, Secretary of Defense Donald Rumsfeld, Acting Joint Chiefs Chair Richard Myers, nominal Joint Chiefs Chair Hugh Shelton, NMCC Commander Gen. Montague Winfield, NORAD Commander Ralph Eberhart, and New York City Mayor Rudolph Giuliani. Based on the wildly mutually inconsistent accounts and demonstrable lies offered by these men and their protectors concerning their potentially treasonous activities on September 11th, 2001, all eight of them ought to be immediately arrested and hauled into the nearest precinct station for interrogation.

Grand Jury to Investigate Demolition of the World Trade Center

In a letter dated November 7, 2018, the [U.S. Attorney for the Southern District of New York notified the Lawyers' Committee for 9/11 Inquiry](#) that he would comply with the provisions of 18 U.S.C. § 3332 requiring him to present to a special grand jury the Lawyers' Committee's reports filed earlier this year of unprosecuted federal crimes at the World Trade Center. This means a 23-member grand jury, vested with subpoena power and the authority to take sworn testimony, will hear the voluminous evidence of the World Trade Center's demolition and will have the ability to conduct a thorough investigation that results in indictments against suspected individuals — in other words, what the 9/11 Truth Movement has been working toward for 17 years.

Experts Believe Many “Islamic Terror” Attacks are False Flags by Islam’s Enemies

Nobody doubts that some Muslims (like some Jews, Christians, Hindus, Buddhists, and atheists) have been known to use the military tactic of terrorism, which is defined as: “Intentionally targeting civilians to spread fear.” Those Muslims have committed a very grave sin.

But is there really a major “Islamic terrorism” problem in the West? The media and politicians say so. They have convinced majorities in many countries that Islam is the next civilizational enemy—a convenient replacement for the lost Communist enemy after the Cold War ended in 1989.

What is the evidence that Western civilians face grave danger from “Islamic terrorists”? There isn’t any. The average American or European is far more likely to be hit by lightning, or drown in their bathtub, than to be killed by any kind of terrorist. And only 6% of terror attacks in the US are attributed to “Islamic terrorists” while radical Jews, leftists, and Hispanics commit far more terrorism than Muslims.³ Similar figures pertain in Europe.⁴

So why are Western non-Muslims so afraid of “Islamic terrorism”? Apparently they have been brainwashed by the media. The impression that Muslim terrorists pose a grave danger to ordinary people in the West has

been created by the media’s saturation coverage of a relatively small number of terrorist acts attributed to Muslims: the 9/11/2001 attacks on New York and Washington, the 2004 Madrid train bombings, the 2005 London bombings, the 2015 Paris attacks, and a handful of others.

Many journalists, historians, and other experts believe that most or all of the most spectacular terror attacks in the West attributed to radical Muslims are false flag operations run by Western intelligence agencies as part of the Operation Gladio B program. Is this just a conspiracy theory? Unfortunately, no. All historians agree that Western military and intelligence agencies, coordinated by NATO, created a program called Gladio which orchestrated dozens or hundreds of terrorist attacks falsely attributed to “radical leftists” during the Cold War. Today, the Gladio program continues as Gladio B, with “radical Muslims” replacing “radical leftists” as the patsies.

More than 50 leading public intellectuals have contributed to a series of books documenting

Gladio B’s orchestration of the wave of “radical Islamic terrorism” that struck the US and Europe in 2015-2016. For more information, visit: www.falseflagtrilogy.blogspot.com/

Hey Trump!

WHO Celebrated on 9/11?

Donald Trump says he remembers from news stories that Muslims in New Jersey were caught celebrating 9/11. In fact, he is misremembering news stories about Israeli spies who were caught celebrating the success of their operation. Former CIA officer Philip Giraldi explains what really happened:

Excerpt from Giraldi’s “The Dancing Israelis”

By Philip Giraldi

On September 11, 2001, a New Jersey housewife saw something from the window of her apartment building, which overlooked the World Trade Center. She watched as the buildings burned and crumbled but also noted something strange. Three young men were kneeling on the roof of a white transit van parked by the water’s edge, making a movie in which they featured themselves high fiving and laughing in front of the catastrophic scene unfolding behind them. The woman wrote down the license plate number of the van and called the police, who responded quickly and soon both the local force and the FBI began looking for the vehicle, which was subsequently seen by other witnesses in various locations along the New Jersey waterfront, its occupants “celebrating and filming.”

⁴ <http://www.loonwatch.com/files/2010/01/terrorism-in-europe/>

The license plate number revealed that the van belonged to a New Jersey registered company called Urban Moving Systems. At 4 p.m. the vehicle was spotted and pulled over. Five men between the ages of 22 and 27 years old emerged. They were detained at gunpoint and handcuffed. They were all Israelis. One of them had \$4,700 in cash hidden in his sock and another had two foreign passports. Bomb sniffing dogs reacted to the smell of explosives in the van.

According to the initial police report, the driver identified as Sivan Kurzberg, stated “We are Israeli. We are not your problem. Your problems are our problems. The Palestinians are the problem.” The four other passengers were Sivan’s brother Paul, Yaron Shmuel, Oded Ellner and Omer Marmari. The men were detained at the Bergen County jail in New Jersey before being transferred the FBI’s Foreign Counterintelligence Section, which handles allegations of spying.

After the arrest, the FBI obtained a warrant to search Urban Moving System’s Weehawken, N.J., offices. Papers and computers were seized. The company owner Dominick Suter, also an Israeli, answered FBI questions but when a follow-up interview was set up a few days later it was learned that he had fled the country for Israel, putting both his business and home up for sale. The office space and warehouse were abandoned. It was later learned that Suter has been associated with at least **fourteen businesses** in the United States, mostly in New Jersey and New York but also in Florida. Florida was a main focus for the Israeli intelligence operation in the U.S. that was directed against Arabs.

The five Israelis were held in Brooklyn, initially on charges relating to visa fraud. FBI interrogators questioned them for more than two months. Several were held in solitary confinement so they could not communicate with each other and two of them were given repeated polygraph exams, which they failed when claiming that they were nothing more than students working summer jobs. The two men that the FBI focused on most intensively were believed to be Mossad staff officers and the other three were volunteers helping with surveillance...⁵

How You Can Help Spread Truth Against Terror

“Rather We hurl the truth (Haq) against falsehood, and it crushes it and behold, falsehood vanishes away! And woe to you for what you allege [about Allah].” Al Quran: Surah Al-Anbiya Ayat 18

The Prophet Muhammad (pbuh) is reported to have said that “the best jihad is a word of truth hurled in the face of a tyrant.” Today, Islam and Muslims are under attack. We are required to defend our faith and our

communities. And the best way to do so is by hurling words of truth.

We are blessed to be living in a time and place in which we can defend our deen and our communities most effectively by simply telling the truth! The early followers of the Prophet Muhammad (pbuh) were in a much more difficult position. They endured many years of horrific persecution because they stood up for truth. Then they were required to risk their lives in battle. Today, it is the battle with words—the “truth jihad”—that will be decisive! Do not shrink back and hide on the sidelines. Allah sees all that you do.
